

Tina Chen, PharmD

School of Pharmacy:

Virginia Commonwealth University

Research Project:

Comparing rates of postoperative complications after colorectal surgery with naloxegol versus alvimopan.

Practice Interests:

Emergency Medicine and Transplant

Why MRMC:

I had a rotation at MRMC as a P4, and everyone there was incredibly welcoming. They invited me to join them in their daily activities, making the experience truly enriching!

Kaiá Harrison, PharmD

School of Pharmacy:

Duquesne University

Research Project:

Evaluation of the Effect of the National Parenteral Lorazepam Shortage on the Use of Benzodiazepines to Treat Acute Agitation, a Retrospective Study

Practice Interests:

Ambulatory Care and Psychiatry

Why MRMC:

My passions align perfectly with the mission of Bon Secours and I really liked the personalities of everyone I interviewed with!

Anne Shinsky, PharmD

School of Pharmacy:

Duquesne University

Research Project:

Impact of an Emergency Medicine Pharmacist on Door to Needle Tenecteplase Time for Acute Ischemic Stroke

Practice Interests:

Internal Medicine and Cardiology

Why MRMC:

I loved the sense of community when I interviewed and the pharmacy team is amazing!
