

MARY IMMACULATE Junior Volunteer Tuberculosis Test

All Junior Volunteers must have a Tuberculosis (PPD) screening. This must be done on or before orientation. Mary Immaculate Occupational Health Department will do this free of charge or you may have this done through your own physician. If your physician administers the test, you must bring a note to Occupational Health from his or her office stating the results and date the test was done.

Occupational Health will be giving the tests Mon, Tues, Wed, Fri Between 7:30am-8:30am. Mon, Tues 2:30pm-3:30pm and on Wed from 2-230pm If these are not convenient times, call 886-6376 to make an appointment.

◆ Please note that once the test is given you must return to Occupational Health to have your arm checked for a reaction within 48-72 hours.

If you have ever had a reaction to this test and cannot have another, you must contact Occupational Health and provide a recent copy of a chest x-ray report. Occupational Health is located at MIH in the Heart Center.

Please complete the following information and present this form to the Occupational Health nurse upon arriving for the test.

Name _____

Address _____
Street
City
Zip

Phone _____ Birth date _____
