

At Bon Secours Westchester Emergency Center, emergency care is always close to home

Your Convenient Location for Complete Medical Care

While other urgent care facilities can provide only limited medical services, the state-of-the-art Westchester Emergency Center is prepared to help your family with everything from injuries to infections. Here are just some examples of emergency and urgent care conditions we treat regularly:

5 Things All Parents Must Know About Emergency Care

1. PLAN AHEAD: Know the closest possible location for care if a child is ill or injured, and always have your insurance information handy.

2. STAY CALM: Feeling upset or uneasy when the child needs emergency care is normal. However, remaining calm will benefit both the child and the work of their caretakers.

3. LEAVE SIBLINGS AT HOME: If it's possible, leaving brothers and sisters at home or with a relative will help you give the sick or injured child your full attention.

4. JUST THE FACTS: Precise, accurate explanations of how the child was injured, or the symptoms he or she is experiencing, can help caretakers diagnose and properly treat the child as quickly as possible.

5. FOLLOW UP: Let the child's doctor or pediatrician know the results of any emergency care, to make sure it's noted in their medical file for future treatment.

Your Emergency Checklist

To be better prepared in the event a child needs emergency care, keep the following information in an easily accessible place in your home:

- ✓ Each parent's contact info
- ✓ Pediatrician's contact info
- ✓ Each child's food or drug allergies
- ✓ List of currently prescribed medications and ongoing medical conditions
- ✓ The child's health insurance policy number and contact info
- ✓ Contact info for friends or family who can help

24/7

ER

 **Bon Secours**
Westchester Emergency Center

- Open 24 hours a day, 7 days a week, to treat emergency and urgent medical conditions
- Staffed with the same caring medical personnel, and using the same state-of-the-art diagnostic equipment, as in Bon Secours hospitals
- No appointment required to be seen
- Ambulances on campus 24 hours a day, to immediately transport patients needing an inpatient hospital stay, bypassing the hospital ER
